PROFESSIONAL SUMMARY

Senior Frontend and Product Engineer with 6+ years of experience building financial and enterprise applications with React, TypeScript, and Next.js. Delivered WCAG-compliant interfaces that increased accessibility compliance by 80% and performance improvements that reduced load times by 35%. Experienced in reusable design systems, maintainable frontend architecture, and cross-functional delivery, with hands-on work in Python, LLM APIs, agent workflows, and MCP.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Redux, Redux-Saga, Zustand, React Query, Angular, React Native

UI, Testing & Quality: Material UI, Tailwind CSS, responsive design, Storybook, design systems, Highcharts, Formik, Yup, i18n, Jest, React Testing Library, Cypress, Playwright, WCAG/ARIA, performance optimization

Backend & Delivery: Node.js, Express, REST APIs, GraphQL, Git, Docker, AWS, CI/CD, Webpack, Vite, Agile/Scrum, Figma

Agentic AI & LLMs: Python, LLM APIs, prompt engineering, tool calling, multi-agent systems, OpenAI Agents SDK, CrewAI, LangGraph, AutoGen, MCP

Languages: English - Advanced, Spanish - Intermediate, German - Elementary

PROFESSIONAL EXPERIENCE

Frontend Developer
Frankfurt, Germany
Fincite GmbH
Sep 2023 - Jun 2026

- Developed responsive, advisor-facing financial applications using React, TypeScript, and Next.js, improving data visualization and client workflows across devices.
- Built and maintained a Storybook component library used across 3 applications, reducing UI inconsistencies and improving development efficiency.
- Delivered WCAG-compliant keyboard navigation and screen-reader support, increasing accessibility compliance by 80% and reducing accessibility-related user requests by 20%.
- Optimized application performance through lazy loading, code splitting, and rendering improvements, reducing load times by 35%.
- Partnered with backend and design teams to establish scalable frontend patterns and a unified design system, improving cross-team consistency.

Senior Frontend Developer
Santiago, Chile
Instance Latam
Nov 2021 - Jun 2023

- Designed and delivered responsive React solutions and prototypes for enterprise clients, translating business requirements into production-ready interfaces.
- Led two frontend developers, defined technical specifications, coordinated delivery and testing, and partnered with backend teams on scalable API integrations.

Full Stack Developer
Santiago, Chile
Accionet
Oct 2020 - Oct 2021

- Developed high-traffic SaaS applications using AngularJS and Node.js, transforming public Wi-Fi into marketing and research tools.

Trainee Developer
Santiago, Chile
A3 Electric Mobility
Jan 2020 - Sep 2020

- Built React Native mobile applications for electric mobility services.

PROJECTS

Career Digital Twin | Python, LLM APIs, Gradio
2026

- Built a Career Digital Twin that answers recruiter questions from structured professional data using Python and LLM APIs.
- Implemented prompt engineering, tool calling, and structured agent workflows, with an interactive interface built using Gradio.

EDUCATION

Master's in Computer Science Engineering
Bangalore, India
Visvesvaraya Technological University
2013 - 2015

Bachelor's in Computer Science Engineering
Bangalore, India
Visvesvaraya Technological University
2009 - 2013
